GRAM PARIVARTAN

(An action towards bringing change)

Introduction

The Gram Parivartan Program was launched with the aim of providing livelihoods that are economically sustainable, ecologically responsible, and socially equitable. The objective is to foster sustainable economic progress within selected communities, where household chosen for participation is expected to achieve an additional annual income of Rs. 1,00,000. This can be achieved through individual or group interventions and can function independently or converged with government programs.

Connecting the Ends – A case study

One pond was created in the individual land of Bhim Manjhi of Pakhariyatand village. He owned a piece of barren land in Pakhariyatand village. They wanted to create the pond in his land for the purpose of recharging ground water and to harvest rainwater for his cattle. The estimated excavation cost was Rs.7 lakhs, which was not affordable for him. The issue was sorted out for him with the help of DBF team who looped in a company from a neighboring location who was in need of soil for filling purpose. This brought down the cost of excavation by almost 90% for him. The pond created potentially harvests 8370KL of water annually. 5 to 7 bore wells in this area are likely to get recharged with improved levels of water table. Hundreds of cattle also fetch water from the newly Created pond.

Location : Jawaharpur

Nurturing Future: Empowering Youth Through Skill Development

Skill development of rural youth plays a vital role in unlocking their potential and creating avenues for a brighter future. By providing tailored training programs and workshops, we equip them with the tools to excel in various trades and professions. This not only enhances their employability but also empowers them to contribute effectively to their communities' growth and development.

Name	- Ghanshyam Kumar Nayak
Trade	- Electrician
Batch	- EDS (01)
Company	- Self Employed

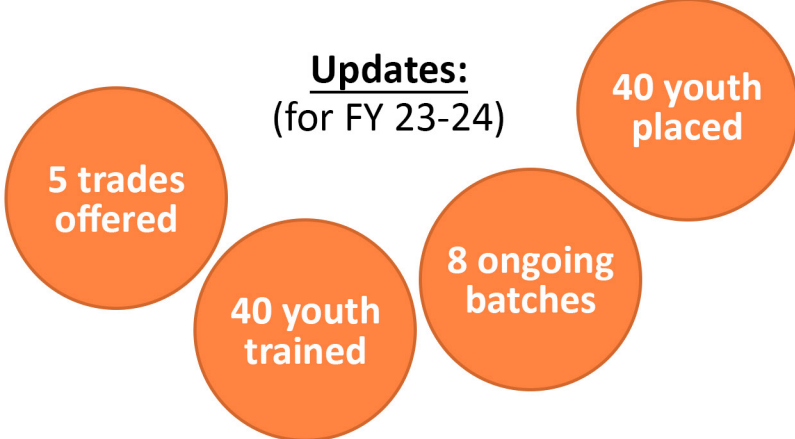

Package:
2.5 to 3.00 lakhs/Annum

Major Trades:

1. Customer Relationship Management
2. General Duty Assistant
3. Sewing Machine Operator
4. Electrician & Solar
5. Decorative Paintings

Trainees of General Duty Assistant trade learning new skills in the GDA Lab

SOCIAL INFRASTRUCTURE

- ➔ Newly constructed Road dedicated to Tupkadih Village
- ➔ The 800-meter-long road connects the Plant with the village.
- ➔ DBF contributed Rs.30 lakhs towards construction of the road
- ➔ 50000 people likely to use the road annually

- ➔ A gynecology camp was organized.
- ➔ 1 Doctor from Jainamora, Bokaro, rendered services to 68 women in the camp
- ➔ Pregnant women, lactating women and women with gynecology related issues consulted the doctors
