LIVELIHOOD & WATER INITIATIVES

DAIRY DEVELOPMENT THROUGH SHORTED AND CONVENTIONAL AI

Insemination

- Milch animals are the most common and regular livelihood activity.
- Through BIAF, promoted milch animals through **Artificial Insemination (AI)** to increase dairy production.
- **59 conventional AI** and **17 shorted AI** procedures were conducted.
- **76 beneficiaries** were benefited through BIAF Artificial Insemination Program.

IRESA BASED BIOGAS PLANTS

- This project promotes sustainable living, enhances quality of life, and supports environmental conservation for the beneficiaries.
- **3 households** received IRESA-based biogas plants under the Gram Parivartan project.
- They are now able to **save Rs. 1000 to Rs.1200 per month** and **gain organic compost worth Rs.1,200 to Rs.1,500 per month**.

MICRO-ENTERPRISE

- A garment shop by Kumkum Devi was inaugurated in the core village.
- She is expected to earn an **annual income of Rs.72,000/- from this initiative**.
- A cosmetic shop by Dhakia Tiwari was inaugurated in the core village.
- He is expected to earn an **annual income of Rs.1,44,000/- from this initiative**.

Battery Power Sprayer Support

ZARI-ZARDOZI

Zari-Zardozi

- **43 households** are engaged in Zari-Zardozi work who already received training.
- **Signed an MOU with the Marketing agency** regarding the buyback arrangements for their raw products.

GRAM PARIVARTAN

An action towards bringing change

INTRODUCTION

15
Villages

3270
Households

32770
Population

The Gram Parivartan Program was launched with the aim of providing livelihoods that are economically sustainable, ecologically responsible, and socially equitable. The objective is to foster sustainable economic progress within selected communities, where household chosen for participation is expected to achieve an additional annual income of Rs. 1,00,000. This can be achieved through individual or group interventions and can function independently or converged with government programs.

Nurturing Futures: Empowering Youth Through Skill Development

Skill development of rural youth plays a vital role in unlocking their potential and creating avenues for a brighter future. By providing tailored training programs and workshops, we equip them with the tools to excel in various trades and professions. This not only enhances their employability but also empowers them to contribute effectively to their communities' growth and development.

Climate resilient Cattle Shed

- Three households received eco-friendly cattle sheds.

Each beneficiary received cattle shed designed to enhance the well-being and productivity of their cattle, leading to increased milk production, improved animal breeding, better general health, and reduced incidence of diseases among the animals.

- These climate-resilient cattle shed model will be replicated for 100 farmers with the support of MGNREGA; applications for these 100 farmers have been submitted to the block office in Nigohi.
